//CHAIN CONTROL SYSTEM

RB08 MKII

CHAIN WINDER

THE PROGRESSION TO THE RB08 MKII CHAIN CONTROL SYSTEM IS THE IMPLEMENTATION OF SEVERAL ADVANCEMENTS IN ACMEDA'S DEVELOPMENT PROGRAM, IMPROVING PERFORMANCE, FUNCTION AND APPEARANCE OF PREVIOUS MODELS.

EASY-LOCK™ BRACKET | VX

AUTO IDLER END

FEATURES

/ Enhanced Aesthetics

A refined chain winder ensuring a smoother aesthetical appearance.

/ Chain retention system with CHAIN SECURE

Improved chain security, avoiding accidental chain removal during operation.

/ Stronger Chain Guard

Strengthened chain cover preventing damage which may be caused by chain stopping devices.

/ Self Locating Installation Grooves

Chain winder featuring integrated grooves assisting to locate brackets in order to ensure an effortless installation.

/ Auto Idler with EXTEND functionality

Adjustable 7mm pin length extension, providing the option to correct inaccurately positioned brackets.

/ Tube Fitment

Increased mechanism stability providing a secure and seamless tube fitment.

/ Square Edge Bracket

New ergonomic bracket design with a square edge profile, reducing light appearance around idle & bracket.
